

## Directions

### For piecing:

1. Fold 5-inch pinwheel squares in half diagonally, press lightly and fold in half diagonally again, followed by another light press.
2. Match raw edges of background square with raw edges of folded pinwheel. Stitch 1/8 inch or so along the raw edge. This will temporarily attach the pinwheel to the background until all four squares are stitched together.
3. Using the diagram as a guide, stitch together all four squares.

Block size (with seam allowance): 9-1/2 inches

### Suggested colors:

Use light background. Use any color for the pinwheels:

Fabric 1 Background

Fabric 2 Pinwheels

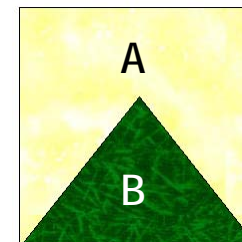

### Materials list

From fabric 1:

4 ea (A) 5-inch squares

From fabric 2:

4 ea (B) 5-inch squares
